Why Choose Banas Stones®

We confidently offer our customers the highest quality, ethically produced and environmentally sustainable natural stone products that are quarried with pride.

As quarry and factory owners, Banas Stones® has complete responsibility for the safety and well being of our employees, guaranteeing ethical working conditions

At Banas Stones®, we ensure that while maintaining close relationships with the concerned government, private and non-profit agencies, we continuously strive to minimize the environmental impact of our operations

High levels of integration helps us maintain the highest quality standards while ensuring timely delivery and competitive pricing simultaneously

Our distribution centre in the GTA stocks the largest inventory of Banas natural stone products in North America

Banas Stones® has been offering premium quality stone products and excellent customer service for the last 25 years

Ethically Sourced & Environmentally Sustainable

Our Guarantee

Banas Stones® offers our customers the highest quality of ethically produced and environmentally sustainable natural stone products that are quarried with pride. For over 30 years, our high levels of integrity as quarry and factory owners has allowed Banas Stones® to deliver supreme quality standards while ensuring timely delivery and competitive pricing. Banas Stones® takes pride in offering a Limited Lifetime Warranty.

Banas Stones® Limited Lifetime Warranty guarantees that from the date of purchase our products including but not limited to all sandstone, limestone and granite pavers/flagstone, coping/treads, steps/risers, pier caps and jumbo slabs are free from processing defects. Banas Stones® guarantees the structural integrity of all landscaping products for a lifetime of 50 years. Banas Stones® will substitute, any defective material with original proof of purchase including invoices, packing slips and original crate labels from an authorized Banas Stones® dealer. This Limited Lifetime Warranty is valid for future owners and transferable with original proof of purchase.

For more information and exclusions please contact the office.

Our seal guarantees our commitment in the fundamentals of ethics, human rights and environmental awareness.

Ethics & Sustainability

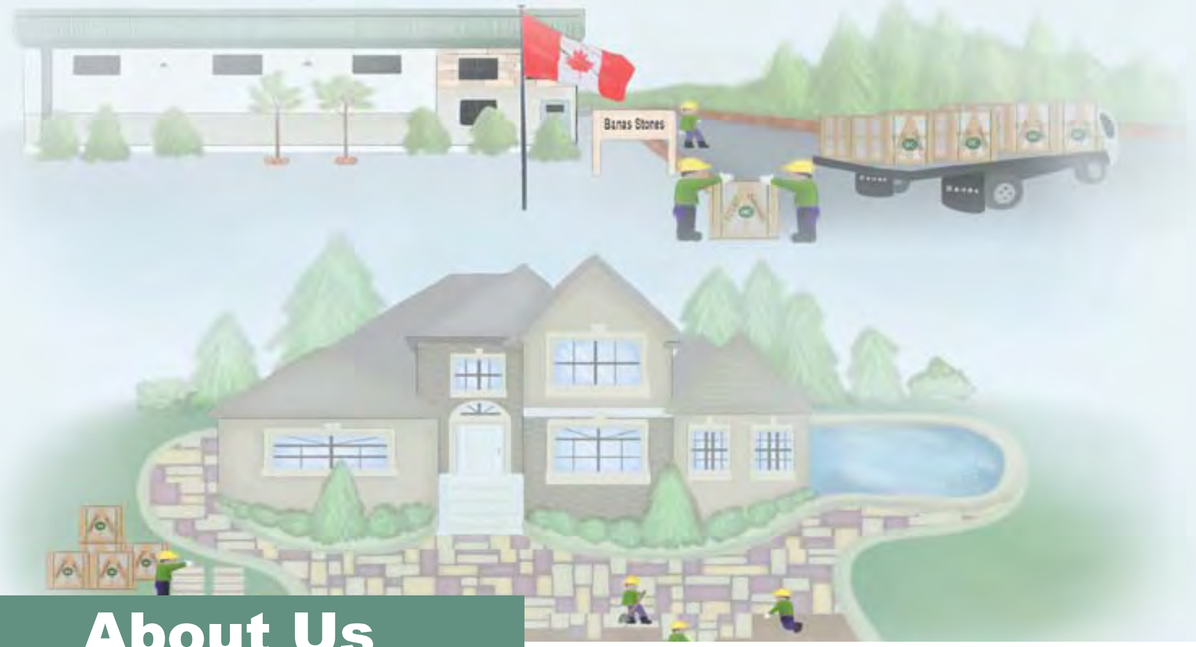
At Banas Stones®, while maintaining close relationships with the concerned government, private and non-profit agencies, we strive to continuously work towards minimizing how our operations affect the environment.

Any product is only as good as its ethical practices. Here at Banas Stones® we do not purchase our stone through a broker, rather we own many quarries and it is processed in our own factories before it becomes a part of your personal oasis. Not only does this give us complete control but also total responsibility of working conditions and well being of our employees.

We are proud to have a 100% safety record in our facilities which effectively helps us retain the best workforce in the industry.

To verify the authenticity of Banas Stones® products, ensure that all crates are labeled with “BANAS”.

For an Authorized Banas Stones® dealer please contact the office (905) 857- 9684.



About Us

Banas Stones® is a family owned and operated company under the Banas Group umbrella which has been offering premium quality stone products and excellent service for the last 30 years. With over 20 operating quarries we are recognized as a major natural stone provider globally and have a portfolio of some of the most magnificent projects on the planet.

To meet the unique and growing demands of the North American natural stone market and to promote its full range of products, Banas Stones® has a distribution centre in Toronto, ON, Canada. The large inventory of premium sandstone, limestone and granite products allows us to provide prompt delivery and excellent service.

Our seal guarantees our commitment in the fundamentals of ethics, human rights and environmental awareness.

Pavers

Banas Stones® is proud to offer a complete collection of high quality natural stone pavers in twenty-six attractive colors and textures, that will extend decorative surfaces for your outdoor projects.

Our sandstone, limestone and granite products add a sense of class and are best suited for the most exquisite designs for your gardens, porches, driveways, walkways, pools and other interior and exterior applications. The applications of square cut flagstone/pavers can be used as architectural stone, flooring, construction, landscaping and other exterior applications depending upon the imagination of an architect.

Banas Imperial Black®

Banas Imperial Black® is an unusual dark brown to black sandstone with a strongly riven texture. This adds to its special character, which is similar to reclaimed flagstone. The darker shades of Imperial Black show the naturally occurring diversity, with each piece having its own individual color, textures and markings.

Banas Imperial Black® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Banas Lavender®

Banas Lavender® sandstone has a real wow factor, with shades at the light end of our range of colors. It is characterized by it's slight brown earth tones in some pieces. Being one of our top sellers, Banas Lavender® has its own unique colors that extend the beauty and tonal variation in a patio with stunning results.

Banas Lavender® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Premium Series

Banas Flint®

Banas Flint® sandstone is an instant choice for various landscaping applications. The consistency of Banas Flint® has increased the demand for this stone. It allows designers to anticipate the color and therefore effectively create applications. Banas Flint® will beautifully blend with existing designs or create a focal point in new and elegant projects.

Banas Lavender® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Banas Brown®

Banas Brown® is a high quality quartzite sandstone with a proven record of durability for exterior use in any climate. The design options are limitless. The earth tones blend attractively with any surroundings and is compatible with a wide range of designs and color schemes. Banas Brown® allows you to create a beautiful space by either complementing existing designs or creating new and exciting projects.

Banas Brown® is available in the following products:

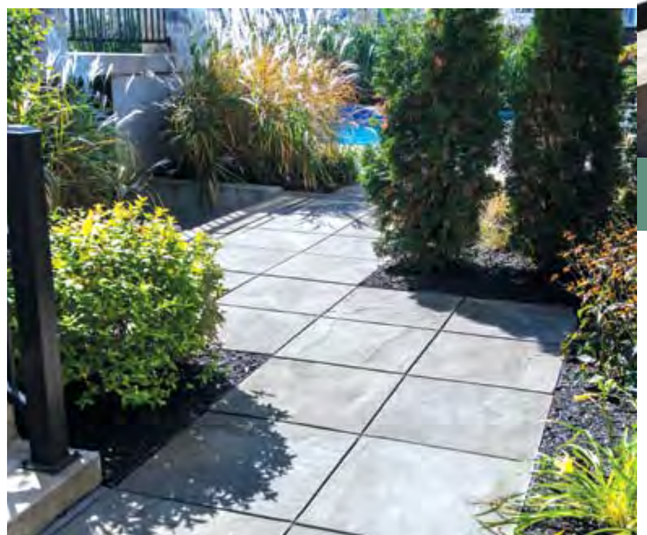
Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

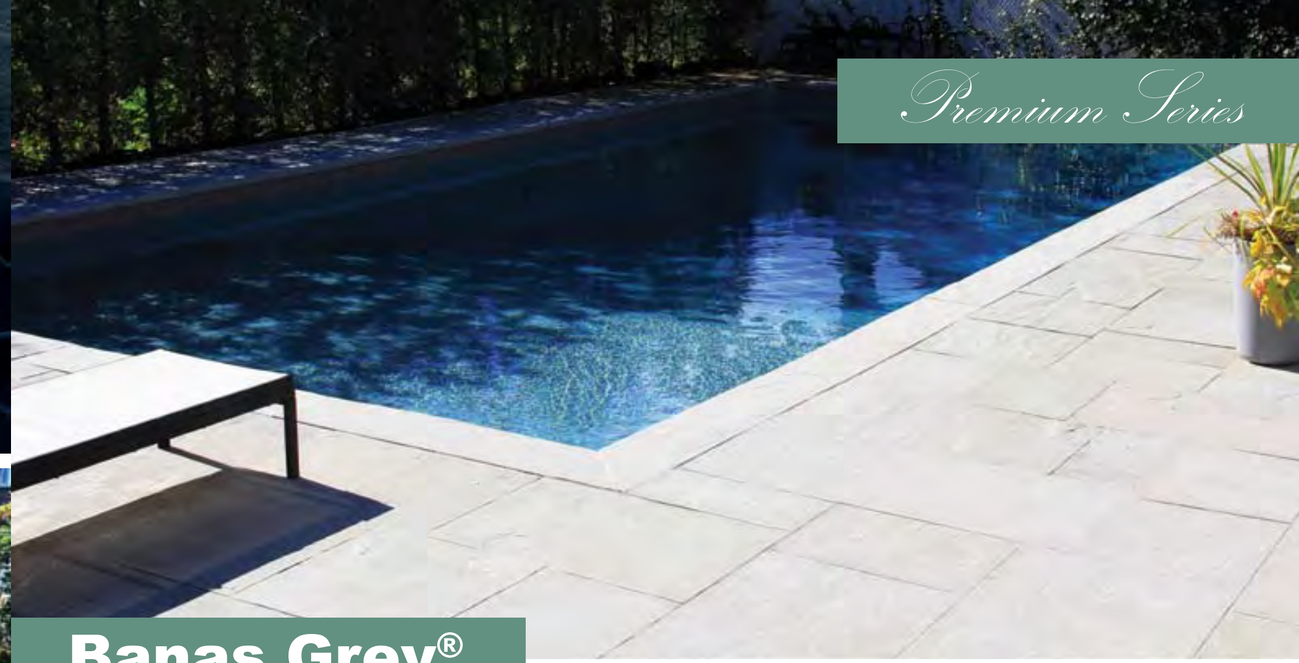
Banas Beige®

Banas Beige® is another exquisite natural stone. This stone has the right color and texture for designers looking to use a natural stone with life. The combination of exceptional physical performance and the intensity of color is unique. It can be used as a cladding or paving material at desired thickness levels that encourage exciting design solutions.

Banas Beige® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers





Banas Grey®

Banas Grey® is a quality durable sandstone. It has the ability to withstand all weather conditions that has been proven by freeze thaw testing and many years of exposure to the elements. This stone has been used in North America's harshest climate for many years and has aged beautifully. The natural color and attractive slip resistant texture makes it extremely versatile for any project including traditional and modern designs. It is has a practical hard wearing surface for a wide range of applications.

Banas Grey® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Banas Bronte®

Banas Bronte® is a hard wearing stone with a proven record of durability for exterior use in any climate. This fine grained sandstone is variegated and has an interesting contrast in color. Each piece has its own individual attributes including texture, shades and markings. Its color shades will blend attractively with any surrounding. Banas Bronte® is a very popular sandstone with an elegant mixture of copper, green, brown and natural swirls, making it an attractive stone for indoor or outdoor applications.

Banas Bronte® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Banas Slate Grey®

Banas Slate Grey® is an unusual dark grey to charcoal high quality sandstone. It matches well with stone which is found naturally in North America due to the darker shades of grey. Exclusive to Banas Stones®, the consistency and variation in its color has allowed Banas Slate Grey® to become extremely popular in Canada and one of our top sellers in recent years.

Banas Slate Grey® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Banas Modak®

Banas Modak® is a vibrant pink, yellow, beige and brown colored sandstone suitable for interior and exterior applications. It has plenty of color variation from tile to tile and is a hard stone suitable for all weather conditions. The considerable variation in color, shade, texture and thickness give Banas Modak® a special character unique to real stone.

Banas Modak® is available in the following products:

- Pavers

Banas Fossil®

Carefully hand picked quality Banas Fossil® flagstone ranges in color from light cream to dark brown with copper and brown tones in places. Some pieces of this stone are marked with beautiful, unusual fern-like fossil shapes which are actually occurring mineral deposits in the stone. The marks add character to the stone to enhance any floor or patio.

Banas Fossil® is available in the following products:

Pavers, Coping, Steps, Pier Caps & Jumbo Slabs

Banas Ivory®

Banas Ivory® has a warm, creamy, off-white color with a plain or fine sandblasted surface texture. In shaded areas it lightens and brightens, while on sunny patios or pool areas the light color is cooler to walk on bare foot. Being the newest additional to our sandstone collection, Banas Ivory® can be given a smooth or rough texture to make it slip resistant which makes it extremely versatile for many situations including traditional and contemporary design.

Banas Ivory® is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

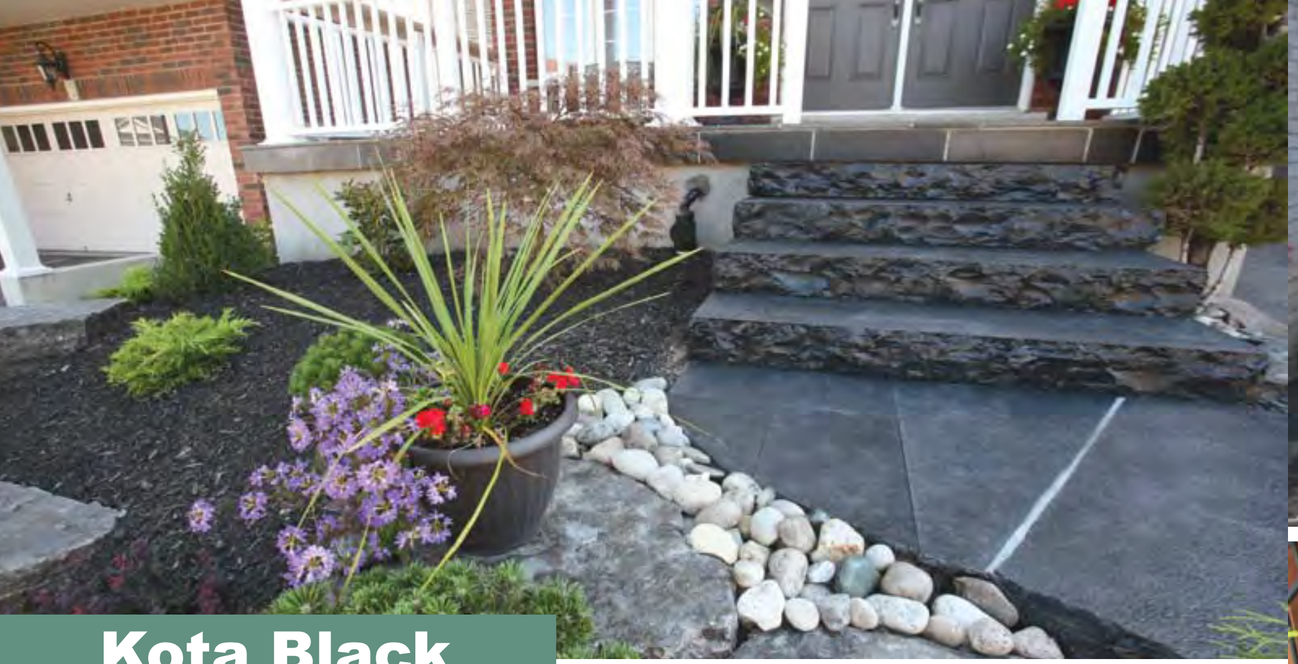
Banas Ivory to be discontinued in 2016! Available upon request.

Kota Blue

Kota Blue is a limestone. Its gently rippled texture with varying muted shades of blue and grey will blend with various planting schemes providing a hard surface that is sympathetic with natural surroundings. It shows the naturally occurring diversity that gives genuine stone its own special appeal.

Kota Blue is available in the following products:

Pavers, Coping/Treads

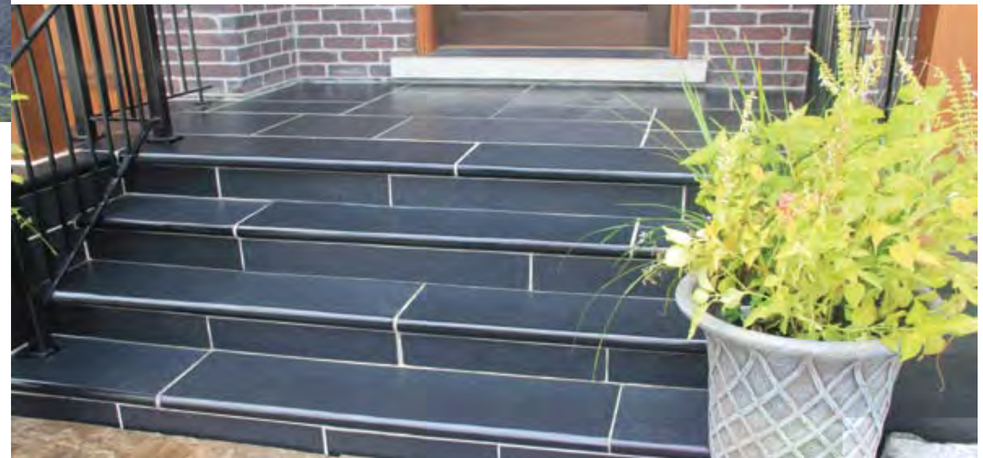


Kota Black

Kota Black is a dolomitic limestone that has been proven to be durable in any climate. It has typical limestone texture that is generally smooth with occasional raven patches. Unique for a limestone, it has a relatively consistent dark grey to black color. The edges of Kota Black paving are sawn and this clean cut appearance and special coloration makes it an ideal material for both contemporary garden design and stylish interiors. It can be laid with other stones to provide contrasts of color and texture.

Kota Black is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers



Kota Brown

Kota Brown is an exceptionally durable limestone. It is weather resistant and ideally suited for applications where only genuine limestone will provide sufficient authentic character. Its color shades vary in graduation of buff.

Kota Brown is available in the following products:

Pavers

Algonquin Brown

One of the newest additions in 2015 to our ‘Estate Series’ is Algonquin Brown. With it’s unique diversity of earth tone varying from piece to piece, Algonquin Brown can compliment any neutral colour pallet. Naturally resembling many popular natural stone that can be found in North American, Algonquin Brown will sure be a success.

Alqonquin Brown is available in the following products:

Pavers, Coping/Treads and Steps

Estate Series

Silver Grey

Silver Grey is a natural grey limestone with dark grey and white undertones that highlight the natural impressions in the texture of the stone. This slip resistant surface is a popular choice in many parts of Asia and Europe and is now becoming a top seller here in North America. Silver Grey show cases the look of natural stone while bringing in the appeal of sophistication that is perfect for both interior and exterior landscaping designs.

Silver Grey is also available in the following products:

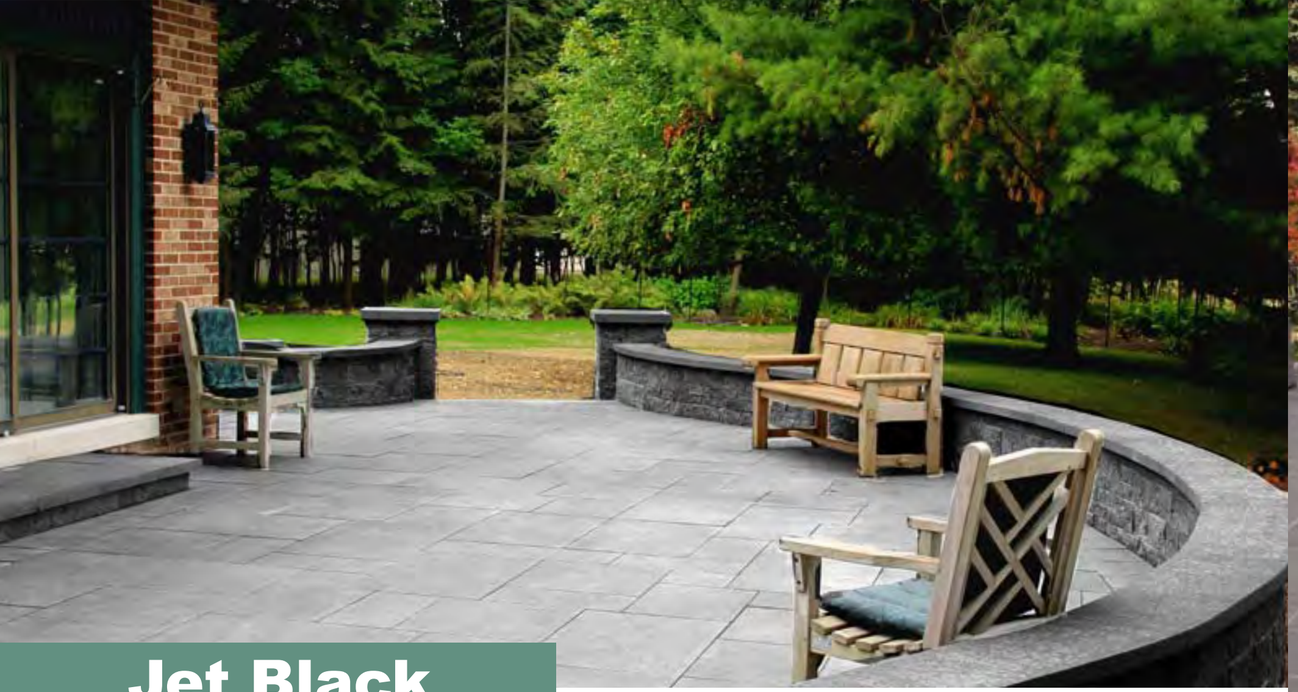
Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Antique Black

The latest addition to our expanding colour selection is Antique Black. It's rich ebony colour and finely textured acid washed non-skid surface makes this natural limestone perfect for indoor or outdoor projects. Antique Black has a relatively consistency of tone that adds sophistication to your personal oasis. When combined with other Banas Stones® products Antique Black provides a dramatic contrast that highlights the qualities in the colours around it. Introduced in 2014, this stone has already proven to be one of our top sellers.

Antique Black is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers



Jet Black

Jet Black is an elegant and enduring dark ebony granite stone. With its unique and exquisite pattern Jet Black is excellent for modern designs for both interior and exterior landscaping. With its sawn finished bottom made easy for a smooth application, Jet Black comes in a variety of finishes to compliment any landscaping projects.

Jet Black is available in the following products:

Pavers, Coping/Treads, Steps, Pier Caps, Jumbo Slabs and Kerbs/Step Fillers

Fine Grey

Granite is becoming one of North America's top choices when it comes to landscaping. With its unique and exquisite pattern granite is excellent for modern designs in either interior or exterior applications. Crystallized granites have a natural yet elegant appeal that is also durable in all climates. Fine Grey has a charming grey and white blend of crystallized grains that will leave any landscaping project appear majestic.

Fine Black is also available in the following products:

Pavers and Coping/Treads & Steps/Risers

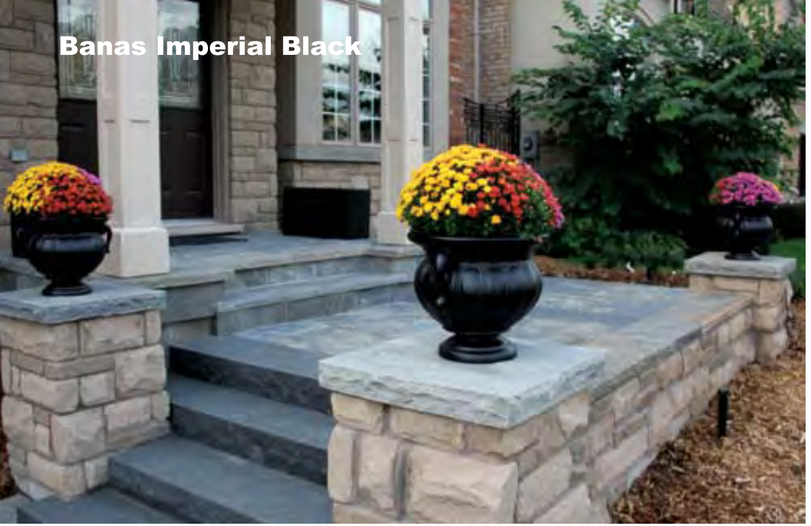
Jumbo Slabs

Our natural stone coping adds value besides serving as a cover for wall coping. Jumbo Slabs can be used for many landscaping projects such as: exterior counter tops, BBQ slabs, coping and jumbo paving stones.

Polished Counter Tops

Exclusive to the Banas Stones® collection for 2016, we are proud to present polished natural stone counter top/ jumbo slabs. These counter tops are perfect for exterior applications in backyard kitchens, BBQ or any outdoor cooking areas. The polished top finish offers for a smoother exterior and additional stain resistant surface, which is perfect for any BBQ areas.

Polished Counter tops are only available in select colours and sizes, please contact your local Banas Stones® dealer for more details.



Pier Caps

Banas Stones® have Pier Caps that complete, protect and accentuate the look of a pillar or column. They provide a pleasing architectural finish and effective protection for your pillars and columns.

Wall Stone

Exclusive to the Banas Stones® collection, our Wall Stone Series is one of our new additions in most recent years. This contemporary natural stone is durable in the North American climate for dry-lay and wet-lay applications. Offered in a variety of different sizes, the Silver Grey wall stone mixed with contrasting colors will compliment any home's beauty.

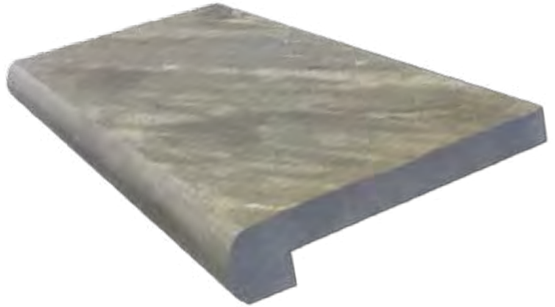
Banas Lavender

1” Coping

Complete your garden, walkway, porches and banding with Banas Stones® new 25mm Coping. Each piece is specially hand chiselled on one long side for the appeal of natural stone edges while the other sides remain sawn for quick and easy installation with traditional flagstone pavers. As an exclusive product to Banas Stones® these 25mm Coping will give you and edge over any other landscape project.

Rock Face Edge

Bullnosed Edge



Rebated Coping

Banas Stones® Rebated coping provides the finishing piece for your natural stone wall, patio or porch. Without coping, a porch will often look incomplete. With the rebated coping, you are able to achieve the appearance of a full finish coping natural hand chiselled edge while the back reduces in size to lay flat in line with our traditional flagstone and pavers.

Rebated coping gives your landscape project relatively maintenance free protection while offering an additional personalization.

Banas Stones® natural stone wall coping comes in a variety of different colours and shapes, providing you the opportunity to either colour coordinate with your walls or to choose a bold colour to create an architectural focal point for your outdoor landscaping project

Finishes

Top Natural, Bottom Calibrated,
Edges Rock Faced on 1 Long Side
Or 1 Bullnosed on 1 Long Side

Sizes

Standard Length: 48”
Standard Width: 12”
Standard Thickness: 1” to 2”

***Other sizes available upon request**

Product Specifications

There is nothing more elegant, appealing and durable than natural stone in the world of landscaping and design. The breathtaking and ever lasting beauty of natural stone monuments and projects completed centuries ago indicate jus how incredible natural stone can be.

Banas Stones® offers productions in the following materials:

Sandstone

Limestone

Granite

For more information, please refer to the Banas Stones® Technical Specifications & Guide.

Our seal guarantees our commitment in the fundamentals of ethics, human rights and environmental awareness.

Sandstone

Sandstone is a sedimentary rock composed mainly of sand-size rock grains. Most sandstone is comprised of quartz and/or feldspar because these are the most commonly found minerals in the earth's crust. Unlike sand, sandstone may be any color but the most common is grey and brown. Since sandstone beds often form highly visible cliffs and other topographic features, identified with certain regions. Some sandstones are resistant to weathering, yet are easy to work with. This makes sandstone a common building and paving material.

	600mm x 600mm
	900mm x 600mm
Availability	Pavers, Coping/Reads, Steps/Risers, Pier Caps, Jumbo Slabs & other

**Custom thicknesses and sizes are available upon request.*

Limestone

Limestone is a chemical sedimentary rock composed largely of the mineral calcite (Calcium Carbonate: cac03). Limestone often contains variable amounts of silica in the form of chert or fint, as well as amounts of clay, slit and sand as disseminations, nodules, or layers within the rock unit. The primary source of this calcite is speleothem such as stalagmites and stalactites. Limestone makes up about 10 percent of the total volume of all sedimentary rocks.

	600mm x 600mm
	900mm x 600mm
Availability	Pavers, Coping/Reads, Steps/Risers, Pier Caps, Jumbo Slabs & other

**Custom thicknesses and sizes are available upon request.*

Granite

Granite is usually a light-colored, coarse-grained igneous rock consisting mostly of quartz, orthoclase feldspar, sodium-rich plagioclase feldspar, and micas. Granite is an intrusive rock which can be identified as magma that has cooled into crystallized rock. Quartz usually makes up 10 to 50 percent of the light-colored minerals in granite, with the remaining minerals consisting of feldspars. This mineral composition forms the different grey, white, black or pink with dark mineral areas.

Specifications	
Top Finish	Flamed, Acid Washed, Polished, Sandblasted, Honed & Bush Hammered
